Definitions / Requirements of refuse not going through the Transfer Station

- Tarps:** All loads must be tarped regardless of what is in the load. If trash is in both truck and trailer, then both must be tarped. Nets are NOT an allowable cover
- Tires:** Whole Tires must be put in a separate area. If tires are quartered they will be put right in with trash at the Transfer Station.
- Freon and Non-Freon Appliances:** Refrigerators, Freezers, Air Conditioners, De-Humidifiers, Washers, Dryers, Stoves, and Dishwasher's will go in a separate area around to the south of the Transfer Station. All appliances will be put in the same area.
- Yard Waste:** Trees, brush, leaves and grass clippings. Compost Bags ONLY if any.
- Transfer Station:** Waste not listed above will go in this area. This includes, but not limited to: Paper, Plastic, Cardboard, Household trash, Furniture, C & D, etc. Cleaning out of a Garage, basement, house, etc. If tires are quartered they will be put right in with trash at the Transfer Station.
- Required PPE:** WM requires PPE (Personal Protection Equipment) You must have Hi-Vis vest or shirt, Hard Hat in order to dump your items at Miami County Transfer We do offer them here for sale if needed.
- Unacceptable Waste & Screenings:** Hazardous Waste, "Special Profiled Waste", Medical Waste, Liquids, PCB's, Dead Animals, Septic Waste, Lead Acid Batteries (Car Boat & Truck), any Vehicle parts or any other Unacceptable Materials as determined by our management
Random Waste Screening is practiced here We reserve the right to inspect any load or portion of a load arriving at this facility. We will reject all above listed Unacceptable Materials. Your participation in the screening is not an option We apologize for any delays or inconvenience.
